

## **Information for applicants for doctoral study programme FAFNR on the CULS**

Doctoral study program (hereinafter DSP) is designed for graduates of universities who graduated by a state examination Master's degree program in the field DSP follows or in related field. The basic objective of DSP is to obtain and demonstrate the ability of independent scientific work in the field of science through the defence of the doctoral dissertation, publications and other forms of presentation own scientific-research activities, including passing all the tests and the state doctoral examination.

Graduates DSP will obtain academic title "Doctor" (abbreviated to "Ph.D." behind the name).

**Full-time DSP is the only form of doctoral studies** for foreign students. The duration of this form of study is four years. Students of full-time DSP have the status of university students (discount on fares, accommodation on campus, eating in the canteen for student rates etc.).

### **Fields of DSP study**

The applicant chooses field of DSP study (Doctoral Study programmes) and the topic of his doctoral thesis. For more information, please see: [Doctoral Study Programmes](#)

Before the application for studies, the **candidates are kindly asked to contact potential supervisor** and discuss availability of the topic and other details.
